

**Welcome to Candlemas- Imbolc**

**We honor the return of the light. This day is sacred to BRIGID-  
T**

**The celtic Fire Goddess. She is the bright one, who presides over  
the world of crops, sacred arts and crafts, livestock and nature.**

**The seeds of winter have laid dormant. The seed will move for the  
first time beneath the soil. Remember that you, too, are the seed,  
alive, embarking on your journey of growth and aligning with  
change. For Mother Earth reminds us of that constant.**

**What is sprouting under the Dark covering blanket of Earth inside  
you.**

**What is yet to manifest above ground into physical reality?**

**AS our circle begins, we invite Brigid to be us. We ask that she  
guide us in our new beginnings.. Let her inspire us with the fresh  
creativity that she brings to all life.**
